

## Final Project Report

1. Introduction
  - 1.1. Project overviews
  - 1.2. Objectives
2. Project Initialization and Planning Phase
  - 2.1. Define Problem Statement
  - 2.2. Project Proposal (Proposed Solution)
  - 2.3. Initial Project Planning
3. Data Collection and Preprocessing Phase
  - 3.1. Data Collection Plan and Raw Data Sources Identified Data
  - 3.2. Quality Report
  - 3.3. Data Exploration and Preprocessing
4. Model Development Phase
  - 4.1. Feature Selection Report
  - 4.2. Model Selection Report
  - 4.3. Initial Model Training Code, Model Validation and Evaluation Report
5. Model Optimization and Tuning Phase
  - 5.1. Hyperparameter Tuning Documentation
  - 5.2. Performance Metrics Comparison Report
  - 5.3. Final Model Selection Justification
6. Results
  - 6.1. Output Screenshots
7. Advantages & Disadvantages
8. Conclusion
9. Future Scope
10. Appendix
  - 10.1. Source Code
  - 10.2. GitHub & Project Demo Link
